### DEMOCRATS AND THE CAMPAIGN.

### BEGINNING TO BESTIR THEMSELVES AGAIN-THE RELATIONS BETWEEN HILL AND CROKER.

Now that the business of the extra session of the Legislature has been finished, the Democrats, who boldly announced that they were waiting until the Legislature enacted the new election law to furnish them ammunition for the campaign, are be-ginning to bestir themselves. Elliot Danforth. chairman of the Democratic State Committee, announced yesterday that he would issue a call early this week for a meeting of the committee to select the date and the place of holding the Democratic State Convention. The meeting, he said, would probably be held some time in the course of the last week of this month, and the committee would call the convention to meet in the first or second week of September in Saratoga.

Of course, this is all from the side of ex-Senator Hill, as Mr. Danferth is a warm friend of Mr. Hill and is believed by many to be Mr. Hill's choice for the nomination for Governor. Whether it will meet the approval of the Tammany-Murphy faction remains to be seen. It is believed that the Tammany members of the State Committee and those following Messes Croker and Murphy will insist upon a later convention than that proposed. The Tammany men want the convention held late in September after the Republican Convention, so that Mr. Croker may have time to look over the ground, Mr. Croker was expected home about the middle of August, but recently he has intimated that he may be detained until about September 1. He favors a within the Tammany organization that he must straighten out before he can give his undivided attention to the State struggle. For these reasons it is believed that a bitter discussion will be precipiated at the meeting of the State Committee

The Tammany men gather at Long Branch each Sunday to discuss the situation. Senator Murphy, who is acting in conjunction with Mr. Croker in an attempt to gain control of the State organization. is at Elberon. John F. Carroll, acting for Mr. Cro-ker as leader of Tammany Hail, is at Hollywood. Randolph Guggenhelmer, Mayor Van Wyck and others usually visit Long Branch on Sunday, and doubtless there will be a large gathering to-day. When a prominent Tammany man was asked about

"These are simply gatherings of Tammany men, but no actual plan is outlined. Everything depends upon Mr. Croker, and nothing will be done until he comes home. There has been more or less talk re

some serious talk about candidates, but not until then.

When asked if there was a possibility that a Tammany men would be pushed as a candidate for Governor, this Tammany leader replied that he do not anticipate any such possibility, adding. "When Mr. Croker gets home he will quickly grasp the stituation, but I do not think he will depart from precedent. Tammany Hall usually does not fight for places on the State ticket, especially when it has control of New-York City. I think Tammany influence, however, will decide the selection of candidates. I know that Mr. Croker does not want a fight with ex-Senator Hill, despite all this tilk about his warlike intentions. He thinks this is a time for Democrats to get together and elect a Legislature and I nited States Senator. On the other hand, he is not willing to allow Mr. Hill to pose as the party dictator in the State and all that he has said so far was simply a protest against this attitude of the ex-Senator. These Mr. Hill, however, crases to enact that rôle there will be a whole lot of trouble, and Mr. Hill will be involved. A majority of Democrats in the State look to Senator Murphy as the leader and Mr. Croker thinks likewise, and it would be just as well for Mr. Hill to become sensible.

This is mild in comparison to what Mr. Croker

The blazing oil spread in all directions and there was an immediate stampede from the two cars. Screaming women dropped from the cars to the street, and then an alarm was sent in which brought engines Nos. 3, 10 and 30. The cars immediately took fire, and the blazing wreck attracted hundreds of spectators. The motorman on the Franklin-ave, car had a narrow escape from serious injury. The damage to the cars was slight as the fire engines had no trouble in extinguishing the fire. Traffic was detained more than thirty minutes.

### POOLING MILL PRODUCTS.

PLAN ARRANGED FOR THE PRINT CLOTH

Fall River Mass. July 16.-A plan of pooling local mill products has been arranged which the local mill men are satisfied with. Goods to the value of \$1,000,000 will be jointly placed under the control of trustees, and held to await a better condition of the market. This will remove from view the greatest bugbear affecting the local cloth trade, since collaterals can then be raised and turned over, while the surplus stock lies quiet, and incentive will be lost to aggravate competition by centive will be lost to aggravate competition by selling small lots at extremely low prices. It is recognized that the present demand is fair, and a rise in the market is confidently expected.

This movement is entirely separate from the plan for a month's curtailment, which it is proposed to have effective in this city some time between August 1 and October 1, though many of the manufacturers are interested in both. In the course of a week, mill men say, the curtailment scheme will have crystalized into an agreement, by which facturers are interested in both. In the course of a week, mill men say, the curtailment scheme will have crystalized into an agreement, by which 1,500,000 spindles will be affected, embracing one-haif the factories of the city. Further, it is proposed, in the interest of the large number of operatives who will be affected, that the shutdown be on alternate weeks when finally agreed upon.
